They provide notes in hindi and english both. A student can ask doubts n number of times and everytime teachers explain everything with great effort and different examples so that students can understand the concept easily. The best thing which I loved is the ambience of the Institute which is very greenery. It gives great pride to be a part of institution which has won so many trophies. The only thing which bother me is the cleanliness of the washrooms. And ofcourse how I can forget to mention the lovely and big courts of football and basketball ball .

Better graphics and colors arouse the interest and desire to learn among students. Even if they are in senior classes, this way must be adopted. 2) Try to reach every student and ask for their doubts. This can only happen in a class with a moderate or limited strength of students, and is extremely important because this way, students concentrate on studies more. 3) Make teaching a two way interaction. Do not simply give lecture or teach, ask students for their doubts and other questions.
